

Bulle, the 01.06.2023

Manufacturer's information note

Use of glasses

Protection against the risk of eye damage due to exposure to sunlight.

The lenses do not allow direct observation of the sun or solar eclipses. Not suitable for the protection of light rays from artificial sources. Not indicated for protection against the risk of mechanical impacts. Not suitable for driving at night or in poor visibility.

Limit contact with heat, moisture, greases and solvents.

Maintenance and cleaning

For cleaning glasses, use a damp cloth and soap, avoiding the use of solvent and alcohol. Use only clean, soft cloths to avoid damaging the frame and lenses.

Use only replacement parts and accessories provided by the manufacturer or your optical professional.

Conservation

Keep the glasses in its case in a dry place at a temperature between -5°C and $+35^{\circ}\text{C}$
